

Curriculum Vitae

Hyo Jin Jon

[LinkedIn](#) | [Google Scholar](#) | [GitHub](#) | [Homepage](#)

Education

- Aug 2026 – Current **College of William & Mary**, Virginia, USA
- Ph.D. student in Computer Science (Advisor: Dr. Ashley Ye Gao)
- Mar 2024 – Feb 2026 **Konkuk University**, Seoul, South Korea
- M.S. in Computer Science and Engineering (Advisor: Dr. Eun Yi Kim)
 - GPA: 4.50/4.50
- Mar 2018 – Feb 2024 **Konkuk University**, Seoul, South Korea
- B.A.&SC. in Applied Statistics / B.S. in Computer Science and Engineering
 - GPA: 4.10/4.50
 - 2-year absence for military service (Jul 2019 - Feb 2021)

Honors & Awards

Awards & Competitions

- 4th Place, *Speech Emotion Recognition in Naturalistic Conditions Challenge*** (Interspeech 2025) Feb 2025
- Ranked 4th in both Task 1 (*Categorical Emotion Recognition*) and Task 2 (*Emotional Attribute Prediction*) among 93 teams, achieving 2nd place in Valence Prediction sub-task.
 - Designed the core model architecture and ensemble strategy, which are key contributors to this achievement.
 - Managed the feature engineering pipeline and feature-level acoustic/textual pattern analyses.
- 1st Place, *Multilingual Alzheimer's Dementia Recognition through Spontaneous Speech (ADReSS-M) Challenge*** (ICASSP 2023) Feb 2023
- Achieved 1st place in both Task 1 (*Alzheimer's Disease Detection*) and Task 2 (*MMSE Score Prediction*) among 24 teams.
 - Preprocessed audio signals and trained sequential models incorporated into the final ensemble.

Fellowships & Scholarships

- Walter J. Zable Fellowship** Apr 2026
- Selected as an outstanding graduate applicant in the Department of Computer Science and awarded the Zable Fellowship at William & Mary.
 - \$5,300 annual stipend and \$500 research allowance per year for the first two years of graduate study
- Academic Scholarship** (Ranked 1st of 63 students) Feb 2023
- Waived 70% of tuition fee.
- Academic Scholarship** (Ranked 4th of 55 students) Aug 2018
- Waived 40% of tuition fee.

Publications

Conference Proceedings

- MATER: Multi-level Acoustic and Textual Emotion Representation for Interpretable Speech Emotion Recognition** Aug 2025
- Hyo Jin Jon**, Longbin Jin*, Hyuntaek Jung, Hyunseo Kim, Donghun Min, Eun Yi Kim
- Interspeech 2025*
- Identifying Alzheimer's Disease Across Cognitive Impairment Spectrum Using Acoustic Features Only** Dec 2024
- Hyo Jin Jon*, Hyuntaek Jung, Longbin Jin, Eun Yi Kim

International Conference on Pattern Recognition (ICPR) 2024

Consen: Complementary and Simultaneous Ensemble for Alzheimer's Disease Detection and MMSE Score Prediction Jun 2023

Longbin Jin, Yealim Oh, Hyunseo Kim, Hyuntaek Jung, *Hyo Jin Jon*, Jung Eun Shin, Eun Yi Kim

IEEE International Conference on Acoustics, Speech and Signal Processing (ICASSP) 2023

Journal Articles

Enhancing Early Detection of Alzheimer's Disease: An Ensemble Model for Multi-Domain Cognitive Assessment Using Voice and Video Jun 2026

Shinwoo Ham, Donghun Min, *Hyo Jin Jon*, Jung Eun Shin, Eun Yi Kim

Sensors, MDPI

Watermark and Trademark Prompts Boost Video Action Recognition in Visual-Language Models Apr 2025

Longbin Jin, Hyuntaek Jung, *Hyo Jin Jon*, Eun Yi Kim

Mathematics, MDPI

EEG-RegNet: Regressive Emotion Recognition in Continuous VAD Space Using EEG Signals Dec 2024

Hyo Jin Jon, Longbin Jin, Hyuntaek Jung, Hyunseo Kim, Eun Yi Kim

Mathematics, MDPI

ArXiv Paper

EV-CLIP: Efficient Visual Prompt Adaptation for CLIP in Few-Shot Action Recognition under Visual Challenges Apr 2025

*Hyo Jin Jon**, Longbin Jin*, Eun Yi Kim

Publications in Progress

MATER+: Hierarchical Multi-modal Fusion Framework for Speech Emotion Recognition in Naturalistic Conditions Preprint

Hyo Jin Jon, Junil Jeon, Longbin Jin, Eun Yi Kim

Submitted to IEEE Transactions on Affective Computing

Modeling Alcohol-Induced Acoustic Shifts in Spontaneous Speech via Adaptive Prosodic and Spectral Fusion Preprint

Junil Jeon*, *Hyo Jin Jon**, Eun Yi Kim

In Preparation

* denotes equal contributions.

Research Experience

Full-time AI Researcher Voinosis Inc., Seoul Jan 2026 – Jul 2026

- Designing Data Collection Protocols for Driver Monitoring: Detecting Distraction, Drowsiness, and Cognitive Overload using Multi-modal Sensors
- Developing a Multi-modal Deep Learning Model for Alzheimer's Disease Detection and Stress Detection

Part-time Research Intern Voinosis Inc., Seoul Sep 2022 – Dec 2025

- Developed an Alcohol Intoxication Model using speech patterns
- Developed an Alzheimer's Disease Detection Model using speech patterns

Research Assistant AI & CV Lab. at Konkuk University Mar 2024 – Dec 2025

- Developed a framework for Speech Emotion Recognition from Natural Speech
- Designed a Few-shot Domain Adaptation method for Action Recognition using Visual-Language Model
- Designed a model for EEG-based Dimensional Emotion Recognition
- Designed a method for Alzheimer's Disease Detection from Spontaneous Speech

Undergraduate Research Intern AI & CV Lab. at Konkuk University

Jul 2022 - Feb 2024

- Designed a model for EEG-based Dimensional Emotion Recognition
- Designed a method for Alzheimer's Disease Detection from Spontaneous Speech

Teaching Experience

Teaching Assistant

Mar 2024 - Jun 2025

- Artificial Intelligence (Fall 2024, Spring 2025)
- Computer Vision (Spring 2024, Spring 2025)
- Digital Image Processing (Spring 2024)

Additional Information

Language. Korean (Native), English (TOEFL-iBT 98 / MyBest score 105)

Programming Skills. Python, PyTorch, SQL
